

Position: Mid-Level Software Developer

Forward CV to marius@fortyone.co.za with subject: Mid-Level Software Developer

Are you looking to join a highly ambitious and fast-growing company that will help you develop professionally?

We are looking for an extraordinary individual to join the team.

Fast-expanding Forty One Business Solutions is a company that values empowerment and simplification. We strive to achieve this by designing top data analysis solutions and business process automation using leading technologies and platforms.

We are striving to become a strong player in the automation and analytics space.

In order for us to achieve this goal, we need to build a formidable team – and this is where you come in.

Your primary focus will be building software solutions. The solutions will address customer IT infrastructure gaps. Most importantly you will be solving problems and design sustainable solutions. The technologies will vary, but the most prominent is Flowgear. Visit <https://www.flowgear.net/> to learn more. You will learn from many different industries and build skills that will expose you to career paths such as but not limited to: System Analyst, Implementation Consultant, Business Analyst, Software Developer, Data Engineer, Software Integration Specialist, Process Automation Engineer, Project Management. The role will require solution development with some client interaction.

You will be working with other software developers who will guide and mentor you on a regular basis. In order to be successful in our business, you will need to be driven and self-motivated with a hunger for results. Flexibility, adaptability, and initiative are desired.

We value teamwork and depend on each other to improve the business and ourselves. There's a lot of room to grow – results are always rewarded.

This position is ideal for, but not limited to, persons with qualifications in: Software Development, Industrial Engineering (BEng at a University), Business Analysis

Please forward your CV and personal cover letter to marius@fortyone.co.za. Visit www.fortyone.co.za for more information about us.
