Forty One Business Solutions

Position: Industrial Engineer / Business Intelligence Consultant

Forward CV to marius@fortyone.co.za with subject:
Industrial Engineer/Business Intelligence Consultant

Are you looking to join a highly ambitious and fast-growing company that will help you develop professionally?

We are looking for an extraordinary individual to join the team.

FortyOne Business Solutions is a fast-growing company that believes in simplification and empowerment. We strive to achieve this by designing top data analysis solutions and business process automation using leading technologies and platforms.

We are striving to become a strong player in the automation and analytics space.

In order for us to achieve this goal, we need to build a formidable team – and this is where you come in.

Your primary focus will be on adding value to clients. You will be achieving this by developing a thorough understanding of their businesses and implementing systems and processes to improve their operations. The solutions will generally focus on information technology, specifically database and analytics solutions, and/or process automation. You will learn from many different industries and build skills that will expose you to career paths such as, but not limited to: data scientist, data/business analyst, process automation engineer, project management, system/implementation/integration specialist, and consultant. The role will require a balanced combination of client engagement and solution design and development.

You will be engaging with senior executives on a regular basis. In order to be successful in our business, you will need to be driven and self-motivated with a hunger for results.

We are all about teamwork and interdependence, and each of us takes responsibility in making a positive impact on the business and one another. There's a lot of room to grow – results are always rewarded.

This position is ideal for, but not limited to, persons with the following qualifications:
BEng Industrial Engineer (University Degree), Bachelors in Data Science, BEng in Data Engineering, BCom Mathematical Sciences (Data Science).

Please forward your CV and personal cover letter to marius@fortyone.co.za. Visit www.fortyone.co.za for more information about us.

Regards,
Marius van der Merwe
Director
